RE: PRELIMINARY DETERMINATION - HIGH TENACITY RAYON FILAMENT YARN FROM GERMANY

1. The Department of Commerce will published in the Federal Register on February 20, 1992, notice of its preliminary determination that high-tenacity rayon filament yarn from Germany is being sold in the United States at less than fair value.

2. The product covered by this investigation is high-tenacity rayon filament yarn. This product is a multifilament single yarn of viscose rayon with a twist of five turns or more per meter, having a denier of 1100 or greater. This yarn is currently

classifiable under item 5403.10.30.40 of the HTS. High-tenacity rayon filament yarn is used for industrial applications, including automotive hoses and high-performance tires and hoses for appliances.

3. For further reporting purposes, this case has been assigned investigation number A-428-810.

4. The Department has preliminarily determined that critical circumstances exist with respect to Akzo Faser AG (Akzo). Therefore, for all exports of high-tenacity rayon filament yarn from Germany by Akzo, the Customs Service shall suspend liquidation of such entries of high-tenacity rayon filament yarn that are entered or withdrawn from warehouse on or after November 22, 1991, and shall require a cash deposit or the posting of a bond equal to the weighted-average-margin percentage listed below. For exports of high-tenacity rayon filament yarn from Germany by all companies other than Akzo, the Customs Service shall suspend liquidation of such high-tenacity rayon filament yarn that is entered or withdrawn from warehouse on or after February 20, 1992, and shall require a cash deposit or the posting of a bond equal to the estimated preliminary margin percentage listed below.

MANUFACTURER/PRODUCER/ EXPORTER	IDENTIFICATION NUMBER	PRELIMINARY MARGIN PERCENTAGE
Akzo Faser A G	A-428-810-001	20.47%
All Others	A-428-810-000	20.47%

NOTE:

Effective date of suspension for Akzo is 11-22-91.

Effective date of suspension for "All Others" is 2-20-92.
